

**WOTP Mentoring: Communities of Practice**  
**Focused Mentoring Session for French Second Language**  
**Teachers in the WOTP**  
**Christmas Park Elementary School**  
**October 10, 2017**

The focus of this session was the *Cadre européen commun de référence pour les langues (CECR)* and associated School Based Language Portfolio. Further information about these two tools is available at the following link, in both English and French:

Sincere thanks to Marc-Albert Paquette, LBPSB, for leading us in an exploration of the French Second Language programs for Prework Training and Training for a Semiskilled Trade, and for helping us launch a collaborative effort to develop practical activities which support our students' use of French in everyday social and work environments.

In addition, we viewed and discussed this video from Alberta Education related to *l'éducation inclusive*:
